CONTENTS

No. 1, September 20, 1953

PAGE

Hershey, A. D. Nucleic acid economy in bacteria infected with bacteriophage T2. II. Phage precursor nucleic acid 1

Grundfest, Harry, Shanes, Abraham M., and Freygang, Walter. The effect of sodium and potassium ions on the impedance change accompanying the spike in the squid giant axon 25

Shanes, Abraham M., Grundfest, Harry, and Freygang, Walter. Low level impedance changes following the spike in the squid giant axon before and after treatment with "veratrine" alkaloids 39

Bozler, Emil, and Prince, J. T. The control of energy release in extracted muscle fibers 53

Bozler, Emil. The role of phosphocreatine and adenosinetriphosphate in muscular contraction 63

Watanabe, Mary Ishimoto, and Williams, Carroll M. Mitochondria in the flight muscles of insects. II. Effects of the medium on the size, form, and organization of isolated sarcosomes. Plate 1 71

Altamirano, Mario, Coates, Christopher W., Grundfest, Harry, and Nachmansohn, David. Mechanisms of bioelectric activity in electric tissue. I. The response to indirect and direct stimulation of electroplaques of *Electrophorus electricus* 91

Wolken, J. J., and Schwertz, F. A. Chlorophyll monolayers in chloroplasts. Plates 2 and 3 111

Graham, D. M., and Nelson, F. E. Inhibition of lactic streptococcus bacteriophage by crystal violet and other agents 121

No. 2, November 20, 1953

Mihályi, Elemer. Observations on thrombin inactivation by human serum 139

Allfrey, V., Daly, Marie M., and Mirsky, A. E. Synthesis of protein in the pancreas. II. The role of ribonucleoprotein in protein synthesis 157

Stern, Herbert, and Mirsky, A. E. Soluble enzymes of nuclei isolated in sucrose and non-aqueous media. A comparative study 177

Wald, George, and Brown, Paul K. The molar extinction of rhodopsin 189

Maxfield, Myles. Axoplasmic proteins of the squid giant nerve fiber with particular reference to the fibrous protein. Plate 4 201

Hall, Elizabeth A., and Asheshov, Igor N. A study of the action of phagolessin A58 on the T phages 217

PAGE

ROSENBERG, SHELDON, ZITCER, ELSA, and KIRK, PAUL L. Tissue culture studies. Isolation of the active components in the ultrafilterable portion of the chick embryo extract 231

ROSENBERG, SHELDON, and KIRK, PAUL L. Tissue culture studies. Identification of components and synthetic replacements for the active fraction of chick embryo extract ultrafiltrate 239

GIESE, ARTHUR C., IVERSON, R. M., SHEPARD, D. C., JACOBSON, C., and BRANDT, C. L. Quantum relations in photoreactivation of *Colpidium* .. 249

GIESE, ARTHUR C. Some properties of a photodynamic pigment from *Blepharisma* 259

PORTER, C. J., HOLMES, R., and CROCKER, BRUCE F. The mechanism of the synthesis of enzymes. II. Further observations with particular reference to the linear nature of the time course of enzyme formation .. 271

HAMERMAN, DAVID J., and SCHUBERT, MAXWELL. A quantitative study of metachromasy in synovial fluid and mucin 291

No. 3, JANUARY 20, 1954

BLUM, HAROLD F., and KAUZMANN, ELIZABETH FLAGLER. Photodynamic hemolysis at low temperatures 301

BLUM, HAROLD F., COOK, JOHN S., and LOOS, GORDON M. A comparison of five effects of ultraviolet light on the *Arbacia* egg 313

BLUM, HAROLD F., KAUZMANN, ELIZABETH FLAGLER, and CHAPMAN, GEORGE B. Ultraviolet light and the mitotic cycle in the sea urchin's egg. Plate 5 325

SOUTH, FRANK E., JR., and COOK, SHERBURNE F. Argon, xenon, hydrogen, and the oxygen consumption and glycolysis of mouse tissue slices 335

SACKTOR, BERTRAM. Investigations on the mitochondria of the housefly, *Musca domestica* L. III. Requirements for oxidative phosphorylation .. 343

EMMART, E. W., and LONGLEY, J. B. The reactivation of heat-inactivated hyaluronidase 361

HUBBARD, RUTH. The respiration of the isolated rod outer limb of the frog retina 373

HUBBARD, RUTH. The molecular weight of rhodopsin and the nature of the rhodopsin-digitonin complex 381

PERRY, JEROME J., and FOSTER, J. W. Non-involvement of lysis during sporulation of *Bacillus mycoides* in distilled water 401

PONDER, ERIC, and PONDER, RUTH V. The combination between hemolysins and red cells or ghosts, as studied with a radioactive lysin and with new color reactions. With an appendix on the synthesis of sodium dodecyl sulfonate-S^{35} by R. Christian Anderson 411

No. 4, March 20, 1954

PAGE

Osterhout, W. J. V. Changes in resting potential due to a shift of electrolytes in the cell produced by non-electrolytes 423

Mohamed, Mostafa S., and Greenberg, David M. Isolation of purified copper protein from horse liver 433

Mohamed, Mostafa S., and Greenberg, David M. Note on new procedure for isolating ferritin from horse liver 441

Gerstner, Herbert B., Lewis, Robert B., and Richey, Everett O. Early effects of high intensity x-radiation on skeletal muscle 445

Wharton, D. R. A., Miller, Gail Lorenz, and Wharton, Martha L. The odorous attractant of the American cockroach, *Periplaneta americana* (L.). I. Quantitative aspects of the response to the attractant 461

Wharton, D. R. A., Miller, Gail Lorenz, and Wharton, Martha L. The odorous attractant of the American cockroach, *Periplaneta americana* (L.). II. A bioassay method for the attractant 471

Nickerson, Walter J. An enzymatic locus participating in cellular division of a yeast. Plates 6 and 7 483

Eisenman, George, and Rudin, Donald O. Further studies on the functional properties of spinal axons *in vivo* 495

Rudin, Donald O., and Eisenman, George. The action potential of spinal axons *in vitro* 505

Telfer, William H. Immunological studies of insect metamorphosis. II. The role of a sex-limited blood protein in egg formation by the *cecropia* silkworm 539

Einhorn, Stanley L., Hirschberg, Erich, and Gellhorn, Alfred. Effects of cortisone on regenerating rat liver. Plates 8 to 10 559

No. 5, May 20, 1954

Tolbert, N. E., and Zill, L. P. Photosynthesis by protoplasm extruded from *Chara* and *Nitella* 575

Lewin, Joyce C. Silicon metabolism in diatoms. I. Evidence for the role of reduced sulfur compounds in silicon utilization 589

Scott, George T., and Hayward, Hugh R. Evidence for the presence of separate mechanisms regulating potassium and sodium distribution in *Ulva lactuca* 601

Guillet, Marilyn, and Fowler, Richard C. Experimental variations in sonic fragility of red cells 621

Frazier, Howard S., Sicular, Arthur, and Solomon, A. K. Potassium uptake by the dog erythrocyte 631

PAGE

STREETEN, D. H. P., and SOLOMON, A. K. The effect of ACTH and adrenal steroids on K transport in human erythrocytes 643

BACHOFER, C. S., and POTTINGER, M. AELRED. The role of high ionic concentrations in protection against x-irradiation 663

ARNOLD, WILLIAM, and DAVIDSON, J. B. The identity of the fluorescent and delayed light emission spectra in *Chlorella* 677

RALSTON, D. J., and KRUEGER, A. P. The isolation of a staphylococcal phage variant susceptible to an unusual host control. Plates 11 and 12 685

No. 6, JULY 20, 1954

HITCHCOCK, DAVID I. Membrane potentials in the Donnan equilibrium. II. 717

SAGER, RUTH, and GRANICK, S. Nutritional control of sexuality in *Chlamydomonas reinhardi* 729

DETHIER, V. G. Olfactory responses of blowflies to aliphatic aldehydes ... 743

ROSENBERG, JEROME L. Use of a glass electrode for measuring rapid changes in photosynthetic rates 753

GUTHE, KARL F. The effect of formaldehyde on the oxygen equilibrium of hemoglobin 775

EISENMAN, GEORGE, and RUDIN, DONALD O. The compound origin of potential in a stimulated dorsal root 781

RUDIN, DONALD O., and EISENMAN, GEORGE. On the role of the spinal afferent neuron as a generator of extracellular current 795

OSTERHOUT, W. J. V. Apparent violations of the all-or-none law in relation to potassium in the protoplasm 813

RUCK, PHILIP, and JAHN, THEODORE L. Electrical studies on the compound eye of *Ligia occidentalis* Dana (Crustacea: Isopoda) 825

INDEX TO VOLUME 37 851
